3M HOOK-IT

The Right Abrasives

A complete line of coated abrasives to meet all your sanding and finishing needs.

3M Sanding and Finishing Solutions - 3M Hook-it Discs

Core Products

3M™ Hook-it™ 245

245 is Stiff D-weight paper gives a strong backing and long product life. Coated in aluminium oxide with resin bonding to prevent pre-mature burning, this disc is tough and durable for a consistent finish. This anti loading disc is available in a variety of hole configurations and grades.

3M™ Hook-it™ 360L

360L An aluminum oxide open coat, non-loading Hookit™ disc with precise hole design for improved dust extraction constructed in a film backing. Will give a superior finish on high quality lacquers and clear coats.

3M™ Hook-it™ 338U

338U is a premium abrasive using a C weight paper backed with Hookit attachment for portable sanders and off hand sanding. Ideal for intermediate and final sanding on lacquered hard and soft woods, paints lacquers, primers, solid surface materials and plastics it gives a good performance and great value.

3M™ Hook-it™ 618

618 discs feature a sharp silicon carbide mineral which gives an aggressive cut with fine finish. Higher loading resistance means extended product life.

3M™ Hook-it™ 734U

734U has a spiral multi-hole pattern for clean sanding premium and uses Cubitron(TM) grain with a C-weight paper backing. It has good mineral support for longer product life, long lasting cutting action and excellent dust management. Features enhanced anti-loading coating to extend product working life.

Coarser grades produce coarser dust particles.

The unique 51 hole design captures larger particles through larger holes, optimising extraction whilst increasing cut and improving aggression where you need it most. Premium 3M abrasive mineral delivers rapid cut rate.

3M™ Hook-it™ 334U

334U also uses a spiral multihole for clean sanding and with a C-weight paper backing gives good mineral support for longer product life and long lasting cutting action and excellent dust management. The finer grades produce finer dust particles and the unique 177 hole design provides the ultimate in dust extraction for fine particles giving you a cleaner, safer working environment, reducing the need for rework. Features enhanced anti-loading coating to extend product working life.

3M™ Hook-it™ 255P

255P is a popular and premium quality disc which offers superior performance. A C-weight paper backing gives good mineral support for longer product life and sustained cutting action. Features enhanced anti-loading coating to extend product working life and gives good results particularly with fine grades on difficult to sand top coats and primers.

3M™ Hook-it™ 266L

266L is a film backed, micron graded aluminium oxide disc with a fre-cut anti-loading coating which can be used dry to give a fast, precise and consistent cut with very good finish. Applications include the repair of surface scratches and defects on acrylics, GRP, plastics, paint and lacquers.

3M Random Orbital Sanders

Engineered to work hand in hand with 3M Abrasives 3M Air and Electric powered Random Orbital sanders will provide the power and performance to give the perfect finish.

Our wide range of machines all offer :

Impressive a power to weight ratio

Perfectly balanced Back-up pads

Superior balance for reduced vibration and better comfort

Wide range of orbits and vacuum systems.
